Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. The declaration filed on 9/16/2004 under 37 CFR 1.131 is sufficient to overcome the Hawkins and McConnell references.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claim 6 is rejected under 35 U.S.C. 102(e) as being anticipated by Peltonen, U.S. Patent No. 6,393,274.

Regarding claim 6, Peltonen discloses a method for initiating a data network telephone call using a wireless PID with a display comprising the steps of starting a contacts application to display a plurality of contact entries (col. 4, lines 39-48); selecting one of the contact entries identifying a callee (col. 4, lines 39-48); initiating a data communications channel to a telephony server having a user telephone number (col. 6, lines 32-56); sending a message to call the callee (col. 6, lines 32-56);

Art Unit: 2681

connecting a telephone call to the user and connecting the telephone call to the callee (col. 6, lines 32-56).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Peltonen.

Regarding claim 7, Peltonen discloses the method of claim 6 as described above and inherently discloses locating a gateway associated to the callee and sending a signal to call the callee by dialing via a callee's central office. Peltonen, however, fails to disclose wherein the step of connecting the telephone call to the callee includes the steps of locating the closest gateway to the callee.

The examiner contends, however, that at the time of invention, it would have been obvious to a person of ordinary skill in the art to locate the closest gateway as such could lower the cost of the call.

Allowable Subject Matter

6. Claims 1-5 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter: Prior art fails to disclose or render obvious the method of updating user profiles as described in independent claims 1, 3 and 5.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Temica M. Beamer whose telephone number is (703) 306-5837. The examiner can normally be reached on Monday-Thursday (alternate Fridays) 8:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Hudspeth can be reached on (703) 308-4825. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
